Ration Board Asks For Tire Reports

BURLINGAME — San Mateo County Rationing Board on advice from the Northern California office of OPA, has asked that all tire dealers file their quarterly reports at its office as soon as possible.

This report deals with inventories, stock movements, retreads, recapped tires and new and used tubes.

The rationing board said that dealers may obtain the blanks from postoffices. Filing dates for these reports are Sept. 30, Dec. 31, March 31, June 30.

Local Region Observes 'Alert'

Redwood City and the San Francisco area experienced a 34-minute preliminary air raid alert Tuesday. The San Mateo County sheriff's office received the "yellow" signal at 8:11 a.m. and the "white" or all-clear signal at 8:45 a.m.

The "yellow" signal was flashed from San Francisco at 8:09 a.m. and the all-clear at 8:43 a.m. The fourth fighter command ordered the alert as unidentified planes were reported approaching offshore. The planes were later identified as friendly.

Employes Approve Civil Service

Attorneys this week were preparing petitions to be circulated throughout the county to place a civil service system amendment to the county charter on the November ballot. Final draft of the civil service measure was approved paragraph by paragraph by more than 200 county employes Monday night meeting at the San Mateo City Hall.

The new amendment would become Article XIV of the charter, establishing a classified service, salary standardization and retirement system. The last would be left to the discretion of the board of supervisors, which would be required to establish within a year a retirement system comparable to the state system, it was explained. No attempt was made to specify the exact type of system to be enacted.

Control of the classified civil service, under terms of the proposed amendment, would be vested in a six-man personnel board, five members to be appointed by the board of supervisors, one member from each district. The county executive is made an ex-officio member of the board.

All county employes would be included excepting elective officials, those on boards or commissions filled by appointment by elective officials, temporary professional or technical experts, resident physicians and surgeons in the health department, part-time physicians in the health department, licensed personnel in the district attorney's office, two deputy sheriffs, probation officer, special investigators, jurors and election officers, one person holding a confidential position under an elective officer, employments furnished by a private independent contractor.

"No person shall be refused permission to participate in any examination upon the basis of race, color, religious, or political opinions or affiliations, or union membership," the proposed document declares.

All examinations are to be conducted by the California State Personnel Board, and from the results eligibility lists are to be formulated. New appointments must be made from the top three on the list, it is provided.

All present employes in the county service six or more months immediately preceding enactment of the amendment shall be deemed permanent employes, and those with less than six months service shall a probationary period before gaining permanent status.

Employment of a full-time secretary to the civil service commission is provided.

In the salary standardization provisions, the ordinance would (1) ban any reductions in pay as the result of standardization, (2) establish maximums and minimums fo reach classification, (3) fix standards of pay comparable to those paid in other Bay Area jurisdictions.

The civil service amendment would leave county employes free to engage in political activity after hours of employment, except that no county official, including elected officials, "shall directly or indirectly solicit or be concerned in soliciting any assessment or contribution or political service" from anyone in the classified service or on the eligible list.

Advocates of the county employe's plan pointed proudly to the fact that no one connected with previous civil service movements in the county had anything to do with the new proposal. It is the work of Carl Thornton, personnel director, City of Berkeley, formerly with the State Personnel Board and also an associate instructor at University of California.

Atty. E. H. Cosgriff, retained by the employes to study legal provisions, suggested minor changes, and Mark Gates, San Mateo, secretary to the Board of State Harbor Commissioners, explained the workings of civil service in his organization.

It was announced that approval of the proposed amendment was unanimous. An estimated 4800 signatures will be required to place the measure on the ballot.

Anderson Expresses Confidence That Armed Forces Are Working Together

"Impressed" and "gratified" at what he had found in the two weeks since he left Washington, Congressman J. Z. (Jack) Anderson declared here that he believed the United States' armed forces were co-operating to the fullest in the prosecution of the war.

"Although there was a lack of co-operation (between the various branches of the service) so apparent on Dec. 7, which seems to have worried our people," he declared, "if I can encourage you by saying it's disappeared, I want to do so, for it has."

Representative Anderson, now up for re-election after four years of service in Congress, spoke Wednesday to nearly 75 men and women at Redwood City, addressed the Burlingame Rotary Club Wednesday, and spoke in Daly City Wednesday night at the Lions Club. He and a sub-committee of the House Naval Affairs Commmittee are touring South and West defense bases, having left the national capital two weeks ago today. He is able to devote only three days to meeting his constituents.

On his flying trip, Anderson has visited at New Orleans, where he inspected shipyards; at Corpus Christi (Tex.) Naval Air Station, where 400 pilots are now being trained monthly and where 1000 monthly soon will be graduated; San Diego, San Francisco and Moffett Field.

He said that approximately ¾ of a billion dollars had been saved to taxpayers through correction of mal practices discovered by naval committees, such as huge commissions on contracts and evils in the cost plus fixed fee system.

"And these investigations are still continuing," he added.

Unlike the situation in the last war when such practices were not discovered until too late, Congress is making investigations currently, and will correct immediately evils found to exist, Anderson said.

That the U. S. Navy is now on its toes, although it wasn't at Pearl Harbor, is Anderson's belief. He explained that the Coral Sea and Midway battles "were not accidental."

"The navy knew they were coming," he declared.

Preparations have been under way for some time, he added, for the Solomon Islands battle now raging. His naval affairs committee knew before he left Washington that an engagement soon was to take place in the Southwest Pacific, he said.

In a question and answer period following the Redwood City breakfast meeting at Cafe de Paris, over which J. B. McKeon presided, Mr. Anderson said he approved Henry J. Kaiser's plans for huge cargo-carrying airplanes; expressed regret that the President had vetoed the recently-passed synthetic rubber bill which would have set up a single head in control of the rubber situation; told of his confidence that eventually there would be plenty of synthetic rubber and that the stock pile on hand would be sufficient for essenial needs until then; disclosed that in the Bay Area he had found one official who told him some shipyards were only 50 to 60 per cent efficient, due to lack of adequate supervision and men taking advantage of the situation that exists; and said he is inclined to faver the oft-quoted "work or fight" proposal for prosecuting the war.

Commuters Picnic To Be Saturday

Redwood City Commuters Club will hold its annual barbecue at the Richard tum Suden estate, Emerald Lake, Saturday.

Entertainment will be provided by the club members with musical selections from the haywire orchestra, glee club, and solos by William Kielty, Bert Conroy, Fred Jaeger and Lloyd Moore.

Members of the club and their wives have been invited. Approximately 125 people are expected to attend.

The commuters have adopted two new slogans: "Buy your commutation ticket before the first of the month," and "Help improve street car service by securing tokens in advance."

Aircraft Spotter Crews Will Receive Recognition

Just as airplane pilots get credit for flying hours, so members of the aircraft warning service will receive recognition for the long hours they spend watching for enemy planes, it was announced this week by the fourth fighter command.

All watchers who have spent more than 500 hours at their post since Pearl Harbor will receive a silver medal, embossed with wings, a fighter craft, and the letters A.W.S., for aircraft warning service.

The first medal will be awarded during a radio program written especially for aircraft watchers, to be broadcast Monday, Sept. 7, from 6 to 6:30 p.m. over the Red network.

Gen. Wm. E. Kepner, commanding general of the fourth fighter command will present a medal to the man who has spent the greatset number of hours on watch for planes since Dec. 7.

"Eyes Aloft," monthly magazine for observers, is sponsor of the program, and urges all members of the aircraft warning service to listen.

WHY CHANGE?

There is only one real issue in the current campaign to elect a Coroner for San Mateo County in the August 25th Primary Election. That issue involves the question: Who of the field of candidates for the job of coroner can give the taxpayers of San Mateo County the most economical and yet efficient administration of that office for the taxpayers' money?

RE-ELECT
William Crosby
CORONER
Incumbent
PRIMARY ELECTION
AUGUST 25TH

The record produces the answer to that question. During the two terms of office he has served, Coroner William Crosby has proven himself both an efficient and an economical public official.

Under his direct supervision the office of Coroner has functioned with sympathetic understanding of the tragedies which, in the line of duty, that office has had to investigate.

At the same time, Coroner Crosby has improved the highly important department of county government which he heads to the point where today it can be classified with the most efficient departments of its kind and size in this State.

The office of Coroner carries with it the dual job of Public Administrator. It should be recalled that in the days before Coroner Crosby held office as Coroner-Public Administrator, it was the custom to pay from estates to the then Coroner-Public Administrator fees totaling thousands of dollars for his handling of public administrator cases, some single estates amounting to approximately $40,000.

When Coroner Crosby took office that system was discontinued, through adoption of the County Charter so that in the two terms that he has held office he has actually given the tax-payer more service for less money. Today, all moneys and fees derived from public administrator cases are paid in full by Coroner-Public Administrator Crosby into the San Mateo County treasury.

The record shows too that Coroner Crosby has made an efficient functioning department of his office, to-wit:

1. To co-operate with law enforcement agencies and the FBI (Federal Bureau of Investigation) he has installed a finger printing system which has proven invaluable for identification of unidentified persons.

2. Coroner Crosby has arranged with expert pathologists and toxicologists to assist in coroner cases where expert and highly technical medical assistance is required.

3. Coroner Crosby has installed a photographic record system for crime cases investigated by his office, which has proven of great worth to authorities.

4. Realizing the potential threat of a war catastrophe, and as one of the members of the Executive Committee of San Mateo County Civilian Defense Committee, Coroner Crosby has organized an auxiliary deputy coroner staff of 45 volunteers, representative of the entire county, who are ready to swing into action with his regular deputies in the event of an emergency.

Coroner Crosby's record in office is an outstanding one. He has given the taxpayer in two terms of office the most for the tax dollar.

Coroner William Crosby is an efficient, economical public official, who should be retained in office at the polls at the Primary Election, August 25th.

Stanford Will Train Officers

STANFORD UNIVERSITY — A new school for the training of officers for the quartermaster corps of the army has just been established at Stanford by the War Department and will be opened to graduates of universities throughout the nation who have completed two years of basic Reserve Officer Training Corps training, Chancellor Ray L. Wilbur announced this week.

The program will be carried out as a part of the graduate school of business and is the only quartermaster corps unit on the Pacific Coast offering the officer training on the graduate level. The program will be an extension of Stanford's ROTC unit. It will start Sept. 28.

Under selective service regulations, men enrolled in the advance course of quartermaster training will be draft exempt and placed in class 4B.

Students will receive money allowances from the government amounting to $200 for the two-year period and will wear uniforms similar to army officers.

THE COUNTY EXECUTIVE

Some Observations by

JAMES S. JAMES

A Private Citizen

Redwood City, California,
August 10, 1942.

The office of County Executive, if properly administered can be made the most important office in the County.

A qualified executive, capable of carrying out the powers, duties and responsibilities delegated to him by the County Charter would also be capable of bringing about a reasonably harmonious functioning of County affairs which certainly would be a decided and a pleasant surprise for the citizens of San Mateo County.

The experience of the past four years with a County Executive incapable of carrying out his powers, duties and responsibilities has proven a very costly liability. The office now is most expensive and useless.

WHAT KIND OF AN EXECUTIVE WILL YOU ELECT THIS YEAR?

Powers and Duties

Powers, duties and responsibilities delegated to the Executive by Charter provisions are too numerous to quote here. In summary, the Executive is made the **chief officer** of the County, directly responsible to the Board of Supervisors for the proper and efficient administration of County affairs. He acts in an advisory capacity with the Board of Supervisors. He is responsible for the enforcement of all ordinances, orders and governmental regulations of the Board and he is armed with legal authority to carry out his duties. He is expressly prohibited from exercising any power, authority or control over the Board of Supervisors. (He must be expected to have some diplomatic qualities as well as executive ability.)

It seems evident from the above summary of powers and duties that a County Executive of any benefit to the county would have to have the qualifications for the office set up in the original Charter as follows: "THE COUNTY EXECUTIVE SHALL BE A PERSON OF DEMONSTRATED ADMINISTRATIVE ABILITY, HAVING HAD EXPERIENCE IN RESPONSBLE, IMPORTANT EXECUTIVE CAPACITY, AND SHALL BE SELECTED AND APPOINTED SOLELY ON THE BASIS OF HIS EXECUTIVE AND ADMINISTRATIVE QUALIFICATIONS. HE MUST, WHEN APPOINTED, BE A LEGAL RESIDENT OF THE STATE OF CALIFORNIA.

The above qualifications were later entirely eliminated from the Charter. The eliminations were substituted by a single sentence. "HE SHALL BE A LEGAL RESIDENT OF SAN MATEO COUNTY."

Thus we find that the present Charter contains no provisions for qualification of candidates for the most important county officer while the same instrument specifically delegates almost unlimited powers, duties, and responsibilities. When the qualifications were eliminated would it not have been logical to reduce the powers and duties to fit the situation?

What Happened?

Some five years ago the present County Executive failing to meet the charter qualifications for the office also failed to receive the appointment he had applied for. Shortly thereafter he was instrumental in amending the charter. In the amendments which he was successful in having passed he qualified himself by eliminating all but one qualification in the charter. He then became a candidate for the office and was elected.

What To Do About It

Regardless of what we think about the county charter, whether we shall amend it again or repeal it, there is only one thing the individual voter can do in the present election. That is, to carefully inquire into the respective qualifications of the three candidates and to vote for the candidate he believes to be best qualified to bring about a reasonably harmonious and business like administration of county government. (Perhaps, it is a good rule to vote for the candidate who makes the least promises of any nature.)

Knowing that I am well acquainted with all three candidates, a few of my friends have asked me to express my opinion. I have unhesitatingly stated to them that my personal choice is Hugh Smith and I have no objection to making that statement over my signature.

I have known Hugh Smith since 1925 and have served two years with him on the Board of Supervisors, (1937-38). As Chairman of the Board he demonstrated remarkable executive ability. He was uniformly courteous to and patient with all persons appearing before the Board. His manner of handling unusual crowds and critical situations proved his diplomatic ability, a very necessary quality for a successful County Executive.

I believe that Hugh Smith is the only one of the three candidates who has any chance of bringing about harmony in county government and reasonable economies in County Administration. I believe Hugh Smith can come pretty close to measuring up to the stringent qualifications for the office provided for in the orignal charter.

I BELIEVE THAT HUGH SMITH IS THE ONLY CANDIDATE WHO, IF ELECTED, CAN MAKE THE CHARTER WITH ITS AMENDMENTS WORK TO THE BENEFIT OF SAN MATEO COUNTY.

Respectfully submitted.

James S. James.

Scrap Drive Speed-Up To Be Urged

Frank A. De Patta, chairman of the Redwood City salvage campaign, this received word from Sacramento that Governor Olson will proclaim next week as "Salvage Speed-up Week" in an effort to increase collections of scrap iron throughout the state.

The local drive is progressing satisfactorily, according to De Patta, but he emphasized today that a steady flow of scrap must be maintained to meet the city's quota.

Difficulties in disposing of collected scrap iron which arose over prices offered by local junk dealers have been settled, De Patta said. Sam Gold has agreed to pick up 15 tons of scrap now piled at the corporation yard and to pay $9 a ton for it. Other scrap iron will be delivered direct to Gold's establishment for a price of $10 a ton.

Uke Popik, the other dealer involved, previously offered $10 a ton for clean scrap iron delivered to him by any qualified organization.

Civil Service Seeks Engine Workers

Enginemen (steam-electric) are needed immediately to take charge of power plants and auxiliaries in federal buildings, it was announced this week by the civil service commission. Positions pay from $1680 to $2040 a year.

Qualified persons may apply to the civil service commission, Washington, D.C.

The U.S. Civil Service Commission has announced an examination for enginemen (hoisting and portable), woodworker helper, electrician, trackman, sheetmetal worker, mechanic's helper, joiner, packer and crater at the U.S. Naval Air Station, Alameda. For more information apply to the Recorder, Labor Board, Naval Air Station, Alameda, or to the district manager, 12th U.S. Civil Service District, Federal Office Building, San Francisco.

Robert Fulton built one of the earliest steam warships and one of the earliest submarines.

$27,000 Building

Fiesta, Dinner Will Feature Showing Of Mt. Carmel Church Priest House

A fiesta and dinner on the Mt. Carmel Church school grounds, on Katherine and Grand Sts., are being planned for Sunday, Aug. 23, when a formal public showing of the new priest house will be held.

The affair will last from 3 to 8 p.m., with dinner being served at 5 o'clock, according to Father Daniel O'Brien. Amusements and games are being planned by a committee headed by John Kenneally.

The priest house, located on the James Ave.-Grand St. corner of the Mt. Carmel property, has room for four priests. It is now occupied by Father John P. Cavanaugh, church pastor; Father Patrick Thompson and Father Daniel O'Brien.

Cost of the priest house, which was completed several months ago, was $27,000. It has nine rooms downstairs, six rooms upstairs. Each priest has an apartment consisting of bedroom, study and bathroom.

The furniture is plain and simple, being of early colonial design. The architecture, which is Mediterranean in style, conforms with the school building. Architects were Blanchard and Meyer of San Francisco.

This is the first such social gathering sponsored by the Mt. Carmel Church in many years, according to Father O'Brien.

The present church was dedicated in May, 1937, by Archbishop John J. Mitty, after the widening of the highway had made necessary the removal of the old church on El Camino Real and Brewster Ave.

Father Cavanaugh has been pastor of the church since September, 1927.

R.C. Public Library Announces New Fiction List

The Redwood City Public Library this week announced the following list of new fiction for late summer reading.

Chevalier, "Drivin' Woman." The kind of story to lose yourself in and forget your war nerves. A story not easily put aside; a breathless tale with action enough for a dozen novels.

Mainwaring, "Street of the Crying Woman." Story of a man's search for his lost brother which leads to a two-headed plot and four deaths in Mexico and which involves hidden treasure, a revolutionary underground movement, impersonation and revenge.

MacInnes, "Assignment in Brittany." A novel of espionage, adventure and romance about a British intelligence officer on the coast of Occupied France engaged in a dangerous impersonation . . . which was not supposed to include his falling in love with the fiance of the man whose role he was playing.

Nordhoff and Hall, "Men Without Country." A story of desperate men and a rare kind of patriotism. One cannot read this tale without reflecting on the debt the civilized world owes to the brave men fighting for Free France.

Also included in the list:

Arnold, "The Commandos."
Bassett, "Sea Magic."
Bromfield, "Until the Day Break."
Brush, "The Boy From Maine."
Carr, "The Gilded Man."
Charteris, "The Saint Goes West."
Fleming, "A Story to Tell; and Other Tales."
Frost, "Be Young With Me."
Gruber, "The Mighty Blockhead."
Hubner, "The Fabulous People."
Kantor, "Gentle Annie."
LaFarge, "The Copper Pot."
Lavin, "Tales From Bective Bridge."
Lewisohn, "Renegade."
Macardle, "The Uninvited."
Maugham, "The Hour Before the Dawn."
Nathan, "The Sea Gull Cry."
Raine, "The Damyank."
Roberts, "Center of the Web."
Ronald, "Old Soldiers Never Die."
Smith, "The Sun Dial."
Street, "Tap Roots."

Pennsylvania cities are digging up abandoned street car rails for defense.

R.C. Man Promoted

Word that Morris W. Donaldson, son of Mr. and Mrs. Everett W. Donaldson, 1459 Gordon Ave., Redwood City, has been promoted from private to technical corporal was received here this week. He is stationed at Fort Bliss, Tex., with the special weapons troop, seventh cavalry.

In a letter to the Tribune, Corporal Donaldson wrote:

"I want to say that the home town newspaper is a great help to me as it keeps me up with what's going on in Redwood City. A person does not realize what a good paper the Redwood City Tribune is until he goes away from home and wants to know what is going on in the city from which he came."

★ ★ ★

Charles E. Fuller, son of Mr. and Mrs. Leo E. Fuller of Arlington Rd., Redwood City, will leave shortly for Ithaca, N. Y., to undergo naval training at Cornell University.

Fuller, who was commissioned an ensign in the U. S. Naval Reserve Saturday, is a graduate of San Jose State College and of the Stanford Law School, where he won his degree in June. At present he is preparing for the California State Bar examinations.

★ ★ ★

Ralph Lovell, who has been residing at 401 Heller St. with his mother, Mrs. Pearl Lovell, is "somewhere at sea" following his signing with the merchant marine on July 14.

Cranfield Describes Dog Program

Lieut. John G. Cranfield, former San Carlos veterinarian, in a letter this week told of his work in training Hawaiian dogs in the Dogs for Defense program.

Enclosed in the letter was a clipping from the Honolulu Advertiser telling of Cranfield's work.

Dogs, Cranfield says, will play an ever increasing part in the war effort, having been used already by the Russians in winter guerrilla units and by the Germans in coast guarding missions.

Cranfield, with the aid of Elliot Humphreys of the Seeing Eye Corp., Watertown, N. J., trains the dogs to stay by their masters, clears areas of enemy troops and warn against surprise attacks.

The unit commanded by Cranfield is the only dog training school composed of army personnel.

Russia developed the oil output of Baku, Caspian seaport, from 9 million tons in 1920 to 30 million tons in 1940.

In Sumatra and Celebes the wild tribes consider exposing the knee immodest.

M.P. Firemen Answer 6 Calls

Six small fires kept the Menlo Park-Atherton firemen busy over the weekend. None caused more than slight damage.

Sparks from a passing train started a dry grass fire at Hamilton and Windemere Aves., North Palo Alto, shortly after noon, Saturday. At 12:25 a.m. Sunday a fire broke out under the sink at the home of Arthur Cohnrich, 20 Tuscaloosa Ave., Atherton.

Some dry grass and lumber from a torn-down chicken coop burned late Sunday morning at 872 Runnymede St., North Palo Alto. At 11 and 11:49 p.m. there were rubbish fires, the first at Belmont Ave. and Selby Ln., Atherton, and the second at Willow Rd. and Alberni St., North Palo Alto.

Monday morning the Menlo Park firemen put out another brush fire at Coleman St., near Willow Rd., also in North Palo Alto.

Ration Board May Get Names of Speeders

The Tire Rationing Board of San Mateo County hereafter will be given access to the names of all persons who are stopped by highway patrolmen for driving at speeds above 40 miles per hour.

An announcement in Sacramento today by Patrol Chief E. Raymond Cato said the record of each such citation is being placed in the file maintained by the Divison of Drivers Licenses showing the complete driving history of all persons holding licenses.

This information is available on request by the local rationing board. Its primary use will be to check the driving record of all persons applying for new tires or retreads.

Stork Interrupts Service Of San Carlos Bus Line

SAN CARLOS—Horse-bus transportation in San Carlos Monday was curbed by a stork.

Molly, a pinto mare used to pull the bus operated by Hillis Hubbard, gave birth to a filly in the early morning hours, and was unable to help pull the bus to meet the morning trains.

Consequently Hubbard had to authorized use of an automobile rather than abandon his schedule completely and San Carlosians had to return to old, outmoded means of transportation.

A substitute team, however, has been rushed from the H-H ranch and schedules resumed Tuesday morning. The new team's names are Freckles and Blondie.

The new filly is mouse blue in color, Hubbard said, and will be named from suggestions sent or telephoned him by bus line customers.

The operator also announced that if there was a demand for it he would start an additional line covering the White Oaks section of San Carlos.

Mother and filly are progressing nicely, Hubbard said, although no word has been received from the father, a black and white pinto named Doran.

Officials Suggest Borrowing Funds

A. H. Sagehorn, county treasurer, and Thomas J. Kane, controller, have recommended to the board of supervisors that the county borrow $600,000 on tax anticipation notes to meet ordinary demands made upon the treasurer's office.

"The need for such borrowing is apparent and necessary to meet the ordinary demands made upon this office for the 1942-43 fiscal year until taxes applicable to such demands are available from the first installment due Nov. 1, 1942, and delinquent Dec. 5, 1942," Sagehorn stated.

The proposal will have no effect on the county tax rate, it was pointed out.

Take care of these servants ...it's a wartime necessity

PROPER CARE OF YOUR APPLIANCES WILL SAVE WEAR

Clean your appliances frequently so that they will always be ship-shape for tip-top service. Remember when dirt and dust wear in, your appliances wear out. For example, empty the dust bag of your vacuum cleaner after each sweeping; clean out the crumbs in your toaster; wash the interior of your refrigerator after each defrosting; remove the soap scum and lint from your washer immediately after use and remove the dust film from lamp shades and fixtures. Do these simple little things regularly and your appliances will do more and last longer.

PROPER USE WILL SAVE REPAIR

Unintentional abuse of appliances leads to unnecessary repair or break down. Avoid letting your cleaner chew up nails or coins or hairpins. Be careful not to drop or jar appliances with heating elements. Do not overwork your washer by using too much water or overloading with too many clothes. Cook by accurate time and temperature control. Be careful to keep room temperatures down to the comfort level.

Soldier Arrested On Driving Charge

Redwood City police arrested Wilson H. Scott, 26, a soldier from Hamilton Field, Monday on a charge of drunk driving on El Camino Real a mile north of the city limits in San Carlos.

He was arrested after a 65-mile an hour chase by Policeman Earl Whitmore. Scott was wearing civilian clothes.

Taken to the San Mateo County jail he is en route to military police.

BELMONT GRASS FIRE

BELMONT — City firemen of Belmont Sunday at 5:45 p.m. extinguished a grass fire started by the back fire from an unidentified motorcycle on Ralston Ave. near the Citriani Blvd. intersection.

Refugees Tell Story of French Hunger

Mr. and Mrs. Jules Wolf and their two children, Raoul and Lillian, who arrived recently in the United States as refugees from Nazi-ridden Luxembourg, are expected to come to Redwood City "in the near future" for a visit with Mrs. Wolf's brothers, James Kilburg of Oakview Way and John Kilburg of Lakeview Way, Emerald Lake.

This is the Wolf family's first trip to the United States, but Wolf's greatest wish right now is to do something to aid this nation's war effort.

"You don't realize how lucky you are and how much you have to fight for, he told a Spokane (Wash.) Spokesman-Review interviewer. The refugees are visiting Mrs. Wolf's brother-in-law and sister there now. It is the first time the sisters have met since 1922, when the Spokane woman came to America.

Before the Nazis overran his little homeland, Wolf was a department store manager, and his wife, a millinery designer. As soon as language difficulties are ironed out, he expects to get a position in this country.

When the Wolfs began their flight, Raoul was 2½ and his sister a babe in arms. Now, after a stay in France, Raoul is 4½ and the baby 2½. For the sake of relatives on the Continent, details of the Nazi occupation and the flight from France will remain secret so far as the Wolfs are concerned, they told their interviewer.

However, they did talk about the food problem in France—and emphatically.

France, famed for her foods and wines, is now suffering from a heartbreaking lack of many of the dietary essentials, they said.

"There's not enough to live, and too much to die," Mrs. Wolf said concerning the food dole enforced upon all but the Nazi occupiers in France.

"Every bit of food was procured with ration cards," her husband said. "But it was often impossible to get even what the cards allowed. The food just wasn't there to pass out. It was not so bad in the villages surrounded by farm country, but in the cities it was terrible."

A slice of bread a day was allowed to the children. A ration of two pounds of meat a month was allowed, if it could be found.

Although the Allied cause has its sympathizers there, little word of this has been permitted by Nazi watchdogs to leave from France.

Since no one can take money from either France or Luxembourg now, the Wolfs landed in this country virtually without funds. They wore the clothes in which they left from France.

The Wolfs also told the Spokesman-Review of the wooden shoes allowed to French children, so the Germans may use the leather; of German postage stamps printed for the occupied countries before they had been conquered, and of the printed placards of rules for civilian populations, tacked up less than two hours after a town had been occupied.

IMPORTANT NOTICE!

Due to the fact that Mr. Matteson has enlisted in the U. S. Navy, we are DISCONTINUING ALL MOVING for the duration of the war. All goods now in our warehouse will receive the same care as in the past.

Since the office will be closed after August 28, 1942, it will be necessary for all appointments regarding storage to be made by mail to our same address.

To our customers, we wish to extend our thanks for their continued patronage for the last twelve years.

Signed:

Schreiber Estate Exceeds $10,000

Estate of John M. Schreiber, who died in Belmont July 29, is valued in excess of $10,000, according to a petition for probate of will on file in superior court at Redwood City by Ida J. Tremewan of San Mateo, Mr. Schreiber's daughter.

According to a will dated Apr. 22, 1941, he left the bulk of his estate to Mrs. Tremewan. He willed $100 to another daughter, Mrs. Papp Josefne of Budapest, Hungary. His estate consists of real and personal property.

Road Extension

Supervisors Requested To Give Aid

Fred E. Beer, chairman of the San Mateo County Board of Supervisors, today had received a communication from C. H. Sweetser, district engineer, Public Roads Administration, asking what extent the county will contribute toward the cost of a $50,000 improvement to San Bruno Ave. into San Francisco Airport, and whether the county will assume the maintenance of the portion within its jurisdiction.

Sweetser stated he had under consideration with the commandant, 12th Naval District, a proposal to extend San Bruno Ave. into the San Francisco Airport as an access road for the U. S. Coast Guard Air Station located at the airport.

Improvement consists of extending San Bruno Ave. about 125 feet to an interior airport road and includes a timber bridge, 26 feet by 38 feet over a canal, acceleration and deceleration lanes on the Bayshore Hwy. and traffic actuated signals.

The request was based on the fact the improvement will be of permanent benefit to the county in providing access to the airport.

The supervisors will consider the request at their Aug. 18 meeting.

County Government Shows Cost Increase

The per capita cost of San Mateo County government went up 34 per cent between 1935-36 and 1940-41, a study of expenditures of county governments in California, made public this week by California Taxpayers' Association, shows.

In 1935-36 the county spent $16.23 for each man, woman and child in the area. In 1936-37, county expenditures averaged $16.97 per capita. In 1937-38 they totaled $18.59; in 1938-39 they amounted to $21.47; in 1939-40 they were $19.58, and for 1940-41, the last year for which complete data are available, the county spent $21.78 per capita.

Average expenditures by all the counties for all purposes amounted to $18.70 in 1935-36 and $29.23 in 1940-41.

King Chrysanthemum Expected To Rule S.M. County Again In '42

BY OTTO TALLENT

The chrysanthemum again will rule as king in San Mateo County this year, despite the evacuation of Japanese, County Agricultural Commsr. Max J. Leonard predicted today as he turned over the newly-published agricultural report for 1941 to the board of supervisors.

The chrysanthemum and dairy industries were neck and neck in the race for first place in 1941, his report shows.

A total of $1,079,973 was brought in by the chrysanthemum industry. The dairy industry totaled $1,002,277.

ASTERS ARE SECOND

Running far behind in second place in the flower industry were asters, which totaled $420,000. Gladiolus were in third place with $129,800. Total value of the flower industry in the county was $3,222,840.

Despite his prediction that chrysanthemum will remain ruler in the plant kingdom, Leonard estimates that the total value of chryanthemums in the county this year will decrease $300,000. He bases his estimate on the fact the Japanese and Chinese were about 50-50 in the cultivation of the flower, and about half the acreage formerly cultivated by the Japanese is now idle.

SOUTH COUNTY LOSS

Much of the loss, Leonard said, will be centered around Redwood City, between Belmont and Menlo Park.

The chrysanthemum industry will be affected by the war in other ways than by the evacuation of Japanese—namely, priorities and transportation, Leonard said.

Indications are that prices for chrysanthemums will be excellent and the market will be strong.

ONE OF BEST YEARS

The total receipts of $1,079,973 in the chrysanthemum industry in this county in 1941 were from 340 acres. This was one of the best years for chrysanthemum growers in 10 years, Leonard stated. There was heavier acreage, excellent crop and higher prices.

In 1940, 286 acres yielded a total of $732,600. Nurseries estimate they must make $3000 an acre to break even, Leonard said.

Total value of vegetables was up slightly over the 1940 figure. In 1941, the total was $2,815,439, compared to $2,454,438 in 1940. Peas were tops in 1941, as they were in 1940. Total value last year was $561,840. Lettuce and cabbage vied for second place. Lettuce brought $379,200, cabbage $375,375.

LETTUCE NEWCOMER

Lettuce is a newcomer to the leading contenders, Leonard said. It has come forward in the past six or seven years. The season in this county comes in between the good seasons of other places. Leonard anticipates a higher total in 1942, as there is good acreage, production is up and a good price is expected.

Artichokes, once grown almost exclusively in San Mateo County, are taking a back seat. Production has been decreasing steadily. In 1941 the total value was $293,700, compared to $309,000 in 1940. They have been raised too long on the Coastside, Leonard said, and therefore don't have the yield they formerly did.

Production of cabbage has jumped way up. In 1941 its value was $375,375, compared to $196,182 in 1940. The acreage was practically the same but the price increased considerably.

Should a dehydrating plant be set up in Redwood City, as is anticipated, this district would be helped tremendously, Leonard said.

Fruits are losing their value in this region, he said. This is caused by residential subdivision and the wearing out of older orchards. Fruit and nut crops brought $120,035. Strawberries brought $71,284.

Field crops totaled $620,903. In the livestock industry hogs were in second place with $842,540.

TOTALS LISTED

Production values in a nutshell were:

Vegetables	$2,815,439
Flowers	3,222,840
Field crops	630,903
Fruit and nuts	120,035
Bees and livestock	2,430,556
Total	$9,209,773

Leonard's report is in accordance with provisions of the agricultural code of the State of California. The value of these figures is based entirely on the accuracy of information given by many co-operators, together with investigations and detailed surveys made by inspectors and other members of Leonard's staff. Figures on the dairy industry were obtained from state and county milk and livestock inspectors.

City's Valuation Shows Increase

No property owners having appeared to protest the amount sessed, the assessed value of Redwood City property stood this week at $16,775,590, a rise of $667,259 from last year, Nelle L. Miramontes city collector announced.

Tax rate on the assessed valuations has not been set.

Assessed valuation for each of the six city districts are determined by adding the assessed values of land, improvements and personal property and then subtracting exemptions.

This year the Annex section will be assessed for a value of $8,839,140. Other sections' valuations: Old Town, $4,895,835; South Redwood $1,051,533; Port Area $26,890; Carmelita Manor, $57,900; Friend Industrial territory, $29,100.

Total exemption amounted to $1,642,305, of which $128,240 is accounted for by church holdings, $655,350 by schools; $22,430 by parks; $374,135 by municipal holdings; $38,200 by the U. S. post office; $1000 by Union Cemetery; and $422,950 by county property.

AHOY was the dreaded war cry of the Vikings and is, therefore, a distinct nautical hail.

Criswell Estate Valued at $10,180

James A. Lee, inheritance tax appraiser, appraised the value of the estate of Walter G. Criswell, who died at his San Mateo home Apr. 4 at the age of 72, at $10,180.

Before his retirement in 1930, Criswell was western representative of the International Harvester Co. with offices in San Francisco. Besides his wife, Cecile, he was survived by a daughter, Mrs. Kenneth Monteagle, 659 Brewer Dr., Hillsborough.

Atherton Tax Rate Will Be 50 Cents

ATHERTON—Tax rate for the town of Atherton for the 1942-43 fiscal year is to be 50 cents, according to budget figures approved by the Atherton City Council. This is the same tax rate as set last year. A tax rate of three cents was set for bond exemptions.

Budgeted for general city expenses was $26,417, and for the reduction of bond interests, $1325, making a total of $27,742.

REORGANIZATION

BURLINGAME—Minute Men of San Mateo County, who have been functioning as part of the California State Militia, will meet tonight at the McKinley School, Burlingame, to reorganize as a nuit of the state's Minute Men.

The population of the Soviet Union, 170,000,000 at the last census, is approximately four-fifths European, one-fifth Asiatic.

Speaker Says Sugar Is 'Football'

Declaring that sugar is a "political football" and that the sugar industry has added to confusion among the consumers by failing to advertise, Ronald B. Hayes of Spreckels Sugar Co. this week disclosed that the rationing program has piled so much sugar in the warehouses that the producers face lack of space for the oncoming crop. Hayes addressed the Redwood City Exchange Club.

With the carry-over and the beet crop, there is more than enough sugar in the country to maintain present expanded rationing quotas for the balance of the year, Hayes said.

Whether or not rationing was necessary is for historians to decide, he said, and the answer will be found in transportation bottlenecks rather than in the availability of sugar.

Consumers were confused to the point that they used less than the 8-ounce ration originally allowed, and the result was to "back up" sugar in the warhouses. To relieve the warehouse situation the government increased allowances for ration stamps five and six, and now the ration is six pounds for the second eight-week period. Industrial users now are allowed 80 per cent of normal supplies, institutional users 75 per cent, he said.

"Sugar is available," Hayes declared. "Cuba will have a tremendous crop."

He predicted that importation of Mexican labor would solve the sugar beet harvest problem, but admitted that the Spreckels refinery near Salinas has been forced to close for lack of beets. A recently perfected beet-topping harvester cannot be produced for want of priorities, Hayes disclosed.

BOYS START FIRE

Boys playing with matches were blamed by Atherton firemen for a grass fire at 14th and Fair Oaks Ln. at 11:47 a.m. Tuesday. No damage was done.

Christophe, the black Napoleon of Haiti, is said to have killed himself with a golden bullet in 1820.

CD Workers Try Out Gas Suits

Poison gas resisting suits were tried Monday night for the first time by Redwood City civilian defense decontamination unit members at a city-wide drill of control center, medical, auxiliary police and firemen and senior air raid warden squads.

On hand for weeks, until Monday night the suits had lain in the Redwood City firehouse unused.

Mayor Floyd D. Granger said last night that although the unit was slow in certifying members, this was due to the late date at which the unit was organized.

CERTIFICATION SOON

At the next civilian defense certification ceremonies, he claimed, 85 per cent, or seven squad members, will be certified. Federal OCD officials suggest a 15-man squad for a city the size of Redwood City.

The mayor issued a call for additional squad members explaining that more men, especially younger men, were needed in the group.

"Squad members taking a gas course at Stanford University," he explained, "were told that younger men can stand the strain of working in the air tight uniforms much longer."

'AS EXPECTED'

Concerning the rest of the drill, the mayor said it progressed "about as expected."

"Of course, we have difficulties to be ironed out," he declared, "but that's the reason for the drills. We want to find what is not functioning properly and remedy it."

In conclusion he noted that there was a need for more volunteers in the southeastern sections, especially between Redwood Ave. and Roosevelt Ave.

SAFEWAY *Homemakers' Guide*

★ *Safeway week-end prices now good—Tuesday through Saturday* ★ *Hints and suggestions for box lunches* ★ *A shopping lesson from a girl named Nora*

Looking for ways to make box lunches more interesting?

More than ever, it is imperative that the meals you serve your family be appetizing, filling, and up to nutritional standards. And that goes for a box lunch as well as any other meal of the day. In many cases (war workers on night shifts, for instance) the box lunch is the most important meal of the day. And it must not only be appetizing and nutritious, it must be planned and packed to stay attractive for hours after it's been prepared.

So don't use *less* of your menu-planning ingenuity on box lunches—use *more*.

Here are a few hints and a few menus, planned and tested by the Safeway Homemakers' Bureau, that might help you in your planning.

Use the best equipment available. Be sure the tops to all jars and bottles fit perfectly. Use plenty of wax paper.

Vary the bread for sandwiches. Use the more uncommon types of bread once in a while—pumpernickel, raisin, nut bread, sesame seed, etc.

Use lots of butter. This helps keep sandwiches from drying out.

SHIPYARD WORKER'S LUNCH

2 Cold Pot Roast Sandwiches on Enriched White Bread with Pickle Relish or Chili Sauce
2 Sliced American Cheese Sandwiches on Pumpernickel Bread
Container of Cole Slaw
Potato Chips
Apricot Turnover
Thermos of Milk or Coffee

FACTORY WORKER'S LUNCH

2 Minced Ham and Deviled Egg Sandwiches on Enriched White Bread
2 Peanut Butter and Honey Sandwiches on Whole Wheat Bread
Container of Fruit Salad
Gingerbread Cup Cakes
Candy Bar
Thermos of Coffee or Lemonade

DESK WORKER'S LUNCH

Thermos of Hot Tomato Juice
Cold Sliced Meat Loaf Sandwich on Enriched White Bread
Grated Carrot and Raisin Salad Sandwich on Whole Wheat Bread
Pickles
Container of Crushed Berries in Soft Custard
Drop Cookies

"Heavenly Pickles"

That's the name of an article in this week's Family Circle that we recommend you read. It's all about quick-process pickles and spiced fruits. Lots of recipes. Family Circle is out every Thursday—*free* at Safeway.

Safeway Homemakers' Bureau
JULIA LEE WRIGHT, Director

Is your family really well fed?

If you follow the 8 Golden Rules of Nutrition then your family *is* well fed. These rules are discussed in lesson No. 1 of the 10-lesson "Kitchen Course in Nutrition"—an easy, workable course-by-mail. Send name and address and 25c for the entire course to Julia Lee Wright, Box 660-CC, Oakland, California.

EVERY DAY IS DAIRY DAY

Take a tip from nature . . . get the health building elements you need the natural way—the Dairy Food way. Fresh Dairy products in some form should be eaten in abundance daily. Safeway's "rapid fire" delivery system plus rigid turnover control guarantees absolute Freshness of all dairy products.
